4. Categories of Third Parties We Share Personal Information With

Service Providers

From time to time, we may establish a business relationship with other businesses whom we believe trustworthy and who have confirmed that their privacy practices are consistent with ours ("Service Providers"). For example, we may contract with Service Providers to provide certain services, such as hosting and maintenance, data storage and management, advertising, and marketing and promotions. We only provide our Service Providers with the information necessary for them to perform these services on our behalf. Each Service Provider must agree to use reasonable security procedures and practices, appropriate to the nature of the information involved, in order to protect your Personal Information from unauthorized access, use, or disclosure. Service Providers are prohibited from using Personal Information other than as specified by us.

Our Affiliates

We may share Personal Information with businesses controlling, controlled by, or under common control with us, where such affiliates or subsidiaries are acting as our Service Provider, or where required by law.

Third Party Advertising Partners

We may share Personal Information with third parties (such as advertising networks, social media platforms, and measurement/analytics partners) to provide cross-contextual behavioral advertising, analytics, attribution, and reporting. This may include the following categories of Personal Information: identifiers and other identifying information (such as name, email address, phone number, online identifiers, cookie IDs, mobile advertising IDs, or similar identifiers), geolocation information, commercial information, and internet or other electronic network activity information. In some cases, we may share contact information (such as email address) with these partners so they can match it to their users and create custom audiences and similar segments to help us reach people who may be interested in our products or services across different websites, apps, and devices.

Corporate Transactions

If we merge, are acquired, or are sold, or in the event of a transfer of some or all of our assets, we may disclose or transfer Personal Information in connection with such transaction.

Compliance with Laws and Law Enforcement

We cooperate with government and law enforcement officials and private parties to enforce and comply with the law. We may disclose Personal Information and any other information about you to government or law enforcement officials or private parties if, in our discretion, we believe it is necessary or appropriate in order to respond to legal requests (including court orders and subpoenas), to protect the safety, property, or rights of our company or of any third party, to prevent or stop any illegal, unethical, or legally actionable activity, or to comply with the law.

Note regarding Mobile Opt-in Data

Mobile opt-in data is not sold or shared with third parties for their own marketing or commercial use.

5. Privacy Notice Specific to Mobile Messaging

We will only use information you provide when opting into mobile messaging (the “Program”) to transmit your mobile messages and respond to you, if necessary. WE DO NOT SELL, RENT, LOAN, TRADE, LEASE OR OTHERWISE TRANSFER ANY PHONE NUMBERS OR CUSTOMER INFORMATION COLLECTED THROUGH THE PROGRAM TO ANY THIRD PARTY FOR SUCH THIRD PARTY’S MARKETING PURPOSES OR OTHERWISE FOR SUCH THIRD PARTY’S OWN BENEFIT. Nonetheless, we reserve the right at all times to disclose any information as necessary to satisfy any law, regulation or governmental request, to avoid liability, or to protect our rights or property. This Section is strictly limited to the Program and has no effect on other provisions of this Privacy Policy that may govern the relationship between you and us in other contexts. If a mobile messaging program is offered, please refer to its separate Mobile Messaging Terms and Conditions.

6. Cookies

We may use cookies (a small text file placed on your computer to identify your computer and web browser) and may use anonymous identifiers (a random string of characters that is used for the same purposes as a cookie). We may use cookies and other similar technologies to analyze use of and improve the Site and Services and as described in the Advertising and Online Tracking Section of this Privacy Policy. Most web browsers are initially set up to accept cookies. You can reset your web browser to refuse all cookies or to indicate when a cookie is being sent, however, certain features of the Site or Services may not work if you delete or disable cookies. Some of our Service Providers (defined below) may use their own cookies, anonymous identifiers, or other tracking technology in connection with the services they perform on our behalf. We may use Google Analytics on the Site and Services to analyze how users use the Site and Services, and to provide advertisements to you on other websites. For more information about how to opt out of having your information used by Google Analytics, visit <https://tools.google.com/dlpage/gaoptout/>.

7. Session Replay Technology

We use session replay technology on our Site. Session replay technology, also referred to as session playback or user experience (UX) replay, collects information regarding records and tracks your interactions with a website or application. It then transforms those logged user events (such as mouse movements, clicks, page visits, scrolling, tapping, etc.) into a reproduction of what you actually did on the website or application. We use session replays for quality control, customer service, fraud prevention and security, and marketing purposes. Our session replay technology is owned and operated by a third-party who acts as our service provider. The information collected by this technology may be collected by, transferred to, and stored by our third-party service provider.

8. ChatBot Technology

We use chatbots to help provide customer service and support, including through the use of a virtual assistant. A chatbot is a software application that mimics human conversations in text or voice interactions on our website or through our customer service hotline. It enables the communication between a human and a machine, which can take the form of messages or voice commands. The chatbot is designed to work without the assistance of a human operator. It responds to questions posed to it in natural language as if it were a real person using a combination of pre-programmed scripts and machine learning algorithms. When asked a question, the chatbot will answer using the knowledge database that is currently available to it. If the conversation introduces a concept it isn't programmed to understand; it will pass it to a human operator. If you use our chatbot service, we will collect any information you provide to us. We will also create and store a transcript of your chat interaction with us which will be shared with and stored by our third-party service provider. We use these transcripts and the information you provide for quality control, customer service, fraud prevention and security.

9. AI Voice Assistant

Certain telephone numbers we provide for use on our website or in our advertising may be answered, in whole or in part, by an artificial intelligence-powered voice assistant (an "AI Voice Assistant") rather than by a live person. If your call is answered by an AI Voice Assistant, you will be notified at the start of the call that you are speaking with an artificial intelligence assistant and not a live person. Depending on how the AI Voice Assistant has been configured, it may ask you questions, respond to your questions, collect information you provide during the call (such as your name, contact information, and the reason for your call), and/or assist with scheduling or directing your call. If you use the AI Voice Assistant, we will collect the information you provide during the call, along with a recording and/or transcript of the call. This information, including the call audio and any transcript, will be shared with and processed by our third-party service provider that operates the AI Voice Assistant technology on our behalf. We use this information for the same purposes described elsewhere in this Privacy Policy, including to provide and improve the Services, for quality control and customer service, and for security and fraud prevention purposes.

10. Advertising and Online Tracking

We may place advertisements and allow third-party companies to serve ads and collect certain information when you visit the Site. These companies may use certain information (e.g. click stream information, web browser type, time and date, subject of advertisements clicked or scrolled over) during your visits to this Site and other websites in order to provide advertisements about goods and services likely to be of interest to you (i.e., for cross-contextual behavioral advertising). We may provide these companies with information we have collected about you, such as your email address or other contact information (in hashed or other de-identified form where supported), to help them recognize you across devices and deliver interest-based advertising, including by creating “custom audiences” or similar matched-audience segments on third-party platforms. These companies may also collect information about your activities on our Site on your current device and combine it with information about your activities on other websites, mobile apps, and devices. These companies typically collect such information using server logs, cookies, web beacons, tags, pixels, mobile advertising IDs (such as Facebook cookies or Google's Advertising ID), cross-device linking, and similar technologies. They may match your browsers or devices if you log into the same online service on multiple devices or if your devices share similar attributes that support an inference that they are used by the same person or household. This means that information about your activity on websites or apps on your current browser or device may be combined and used with information collected from your other browsers or devices. These third party partners use this information for our and their own advertising, analytics, attribution, and reporting purposes. Our systems do not recognize browser “Do Not Track” signals, but several of our Service Providers who utilize these cookies on this Site enable you to opt out of targeted advertising practices. To learn more about these advertising practices or to opt out of this type of advertising, you can visit www.networkadvertising.org or www.aboutads.info/choices/. Options you make are device specific.

11. Managing Your Information Preferences

You can opt out of receiving marketing e-mails from us by following the link provided at the bottom of all marketing e-mails you receive from us. You are able to opt out of receiving marketing e-mails from us, however, you cannot opt out of receiving all e-mails from us, such as e-mails about the status of your account.

12. Be Careful When You Share Information with Others

Please be aware that whenever you share information on any public area of the Site or Services, that information may be accessed by others. In addition, please remember that when you share information in any other communications with third parties, that information may be passed along or made public by others. This means that anyone with access to such information can potentially use it for any purpose, including sending unsolicited communications. We cannot control and are not responsible for what such third parties may do with your information, so you should exercise caution when choosing to share it.

13. Security

We maintain physical, electronic, and procedural safeguards to help protect the confidentiality and security of information transmitted to us. Personal information may be accessed by persons within our organization, or other entities described in this Privacy Policy, or our third-party service providers, who require such access to carry out the purposes described in this Privacy Policy, or as otherwise permitted or required by applicable law. However, no data transmission over the Internet or other network can be guaranteed to be 100% secure, and no security measures can provide absolute protection. As a result, while we strive to protect information transmitted on or through the Site or Services, we cannot and do not guarantee the security of any information you transmit on or through the Site or Services, or that you otherwise provide to us, and you do so at your own risk.

14. Links

Our Site and Services may contain links to other websites or allow others to send you such links. A link to a third party's website does not mean that we endorse it or that we are affiliated with it. We do not exercise control over third-party websites and are not responsible for their practices. You access such third-party websites or content at your own risk. You should always read the privacy policy of a third-party website before providing any information to the website.

15. Children's Privacy

The Site and Services are intended for users who are 18 years old or older. We do not knowingly collect Personal Information from children under the age of 13. If we become aware that we have inadvertently received Personal Information from a child under the age of 13, we will delete such information from our records.

16. Processing in the United States

Please be aware that your Personal Information and communications may be transferred to and maintained on servers or databases located outside your state, province, or country. If you are located outside of the United States, please be advised that we process and store all information in the United States. The laws in the United States may not be as protective of your privacy as those in your location. Personal information processed and stored in another country may be subject to disclosure or access requests by the governments, courts or law enforcement or regulatory agencies in that country according to its laws. By using the Site or Services, you agree that the collection, use, transfer, and disclosure of your Personal Information and communications will be governed by applicable laws in the United States. If you have any questions regarding international data transfers, you may contact us using the contact information we provide below.

17. State Privacy Disclosures (California, Nevada, and Other U.S. States)

Certain U.S. state laws (including California's "Shine the Light" law and Nevada's online privacy law) provide residents with rights regarding a business's disclosure of Personal Information to third parties. Please note that we do not disclose Personal Information to third parties for their own direct marketing purposes, and we do not sell Personal Information for monetary consideration.

18. Notice to Residents of Canada

If you are a resident of Canada, you may have certain privacy rights under Canadian privacy law. You have a right to request access to your personal information and to request a correction to it if you believe it is inaccurate. If you would like to have access to the personal information we have about you, or if you would like to have it corrected, please contact us using the contact information provided on the Site. Please note that in some cases, we may not be able to allow you to access certain personal information in certain circumstances, for example if it contains personal information of other persons, or for legal reasons. To help protect against fraudulent requests for access to your personal information, we may ask you for information to allow us to confirm that the person making the request is you or is authorized to access your information before granting access. For example, we may require you to verify your identity before you access your personal information. Subject to limitations under the law, you may also withdraw your consent to our processing of your personal information. Please note that this does not affect the lawfulness of processing based on consent before it is withdrawn. Please note that if you seek to withdraw consent to processing of personal data that is necessary for us to provide you with goods or services, we may no longer be able to provide such goods or services to you.

19. Privacy Policy Changes

We may change this Privacy Policy from time to time. If we decide to change this Privacy Policy, we will inform you by posting the revised Privacy Policy on the Site. Those changes will go into effect on the “Revised” date shown in the revised Privacy Policy. By continuing to use the Site or Services, you are consenting to the revised Privacy Policy.
